| <p>Subject No. 515.<br/>Construction of an anicut across the Chickadevarayasagara channel. Mr. Narasimha Krishnamachar and Mr. Narasimhe Gowda of Seringapatam Taluk.</p> | <p>Rocks Municipality 5,000 rupees. Banjar lands to the extent of 500 acres will yield a revenue of 10,000 rupees, and wet cultivation will be increased.</p> <p>If the proposal to repair the above channel is not viewed with favor, an anicut may be built across the Chickadevarayasagara channel near Sitapurada anicut, in order to supply water to French Rocks (Hirode) and seven other villages where the scarcity of water is much felt.</p>                                                                                                                                                                                                                                                                                                                       |                                 |
| <p>Subject No. 516.<br/>Extension of Hemavati and Mandakere Channels. Mr. Hebbal Krishnappa of Krishnarajpet Taluk.</p>                                                   | <p>The Hemavati and Mandakere channels may be extended for 5 or 6 miles more.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                 |
| <p>Subject No. 517.<br/>Bridging of the Lokapavani River at Honakere. Mr. Chandrasekharaiya of Nagamangala Taluk.</p>                                                     | <p>The Lokapavani river near Honakere lies across the Mysore-Bellary high road and greatly impedes traffic during flood. The construction of a bridge at that spot is therefore necessary.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |                                 |
| <p>Subject No. 518.<br/>Restoration of certain tanks. Mr. Chandrasekharaiya of Nagamangala Taluk.</p>                                                                     | <p>The following tanks may be restored by Government, raiyats paying contribution for some of them as shown below:—</p> <ol style="list-style-type: none"> <li>1. Anche Chittanahalli—contribution at Rs. 10 per acre.</li> <li>2. Tholalakere—contribution at Rs. 20 per acre.</li> <li>3. Yegatchallikere—Nil.</li> <li>4. Yegatekere „ „</li> <li>5.
